

My Graduation Speech

Hi, my name is Anna and I just wanted to say a big thank you for everyone. I know that I have been with in this class only for almost four years, but I feel like we are like one big family. We all have seen each other ^{almost} every day and sometimes we all annoy each other, but we all together have made so much memories, stories to tell our children and grandchildren. That's ~~amazing~~ crazy. We have made each other happy, sad, mad. We have laughed a lot. These memories are the best. And we gonna remember them our whole lives. Each of us is special and makes this class special and perfect. I have never been happier with my class, I love you all and thanks for just being. Thank you! ♡

My graduation speech

Congratulations graduates! Today is the day most of us have been waiting for years. It's a day some of us say goodbye to our classmate and teachers. Of course, some of us will stay for 3 more years but a lot of us will be doing different things soon. Making new friends, meeting new people, new teachers, new everything.

It's sad to leave this school after 9 years and some of these people I've known since kindergarten. Now that's a long time and all the memories I've made with these people are unforgettable.

All the laughs in class and when it's break. All the times we have ran to make it in time for lunch, us enjoying our small road trips together. Those are the thing I will never forget.

We have all grown together. We all are a family, now we will go further in life and reunite hopefully soon. We all have gone through thick and thin together. It was hard at first trying to see who your real friends are and who you can trust and can't. At the end we all became good friends and what's sad about this is that, we all became great friends at the very end. This was the only year where we all could talk together and shared our ideas with everyone.

I am one of those people who won't be coming back next year but I'm so happy that I met these people. I honestly couldn't have asked for better classmates. It's been a great ride with all of you. I know the future will bring us all something truly amazing. My advice for you all is to never ever give up on the things you love because in the end it's all worth it. We all make mistakes in life, but we also learn from them and we become better versions of ourselves.

I wish the best for all of you. Teachers and the students. I wouldn't be here if it wasn't for you all. You all made each day worth it and I'll never forget that. I'm looking forward to us reuniting and hearing about all the amazing things you all have done.

Congratulations to you all! And thank you for everything.

My graduation speech

Hi everyone, my name is Matīss Melngailis, thanks for coming. I won't talk for too long, I basically just wanted to thank you all for these 9, amazing, years. I made many new friends, did some great things, and committed at least a few crimes, well no one's perfect. I still remember my first school day I wasn't really worried I just kind of went with the flow, and that hasn't really changed, I still just go with flow which somehow keeps working out for me. Well all in all I had a good time and even learned a thing or two. Thank you.
